

Why does Kaiser treat Hawaii workers as second class?

Why does Kaiser think it is OK to provide mainland Kaiser workers a simple and fair process to join a union, and in Hawaii offer a second-rate proposal for a process?

Kaiser phlebotomists want Kaiser to deliver a fair process for them to unionize.

We are proud Hawaii workers in the Kaiser lab department (phlebotomists) who deserve equal rights with mainland Kaiser workers when it comes to a fair process to join a union.

We want a chance to freely decide for ourselves about joining a union. We deserve no less than the best process Kaiser has to offer. We DON'T deserve double talk or a double standard from Kaiser.

It's time for Kaiser to deliver fairness and dignity for Hawaii Kaiser workers.
