MEMBERS REACT - WHAT I'M FIGHTING FOR

"I am on the picket line with my mom, sister, and brother; we all work at the Village. **Hilton calls us family but doesn't treat us like family.** Hilton does not care that they hired me as full-time but I have had to get a second job because I barely get scheduled. We have been trying for months to get Hilton to take our concerns seriously and I believe being out here is the only way they will take us seriously."
